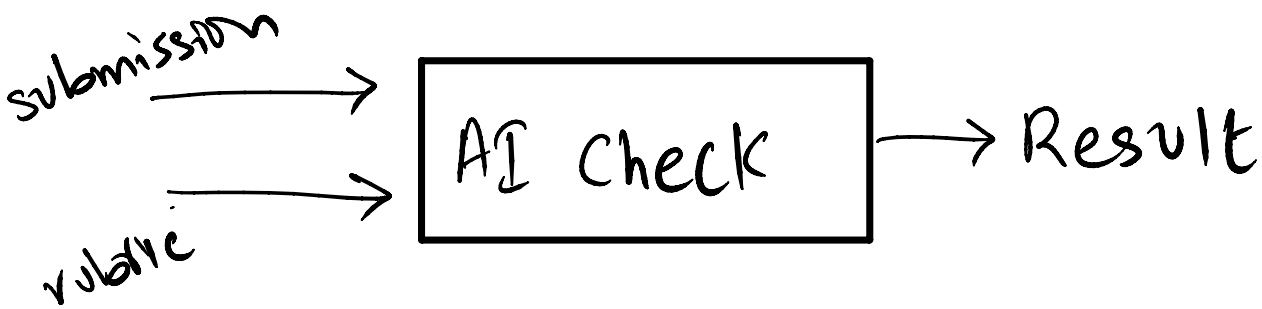
AI Agent design

Saturday, March 28, 2026 5:10 AM

Basic Design.

3 Agents

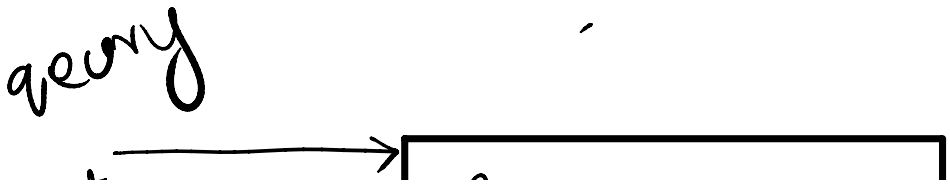
1) AI Checker



format :

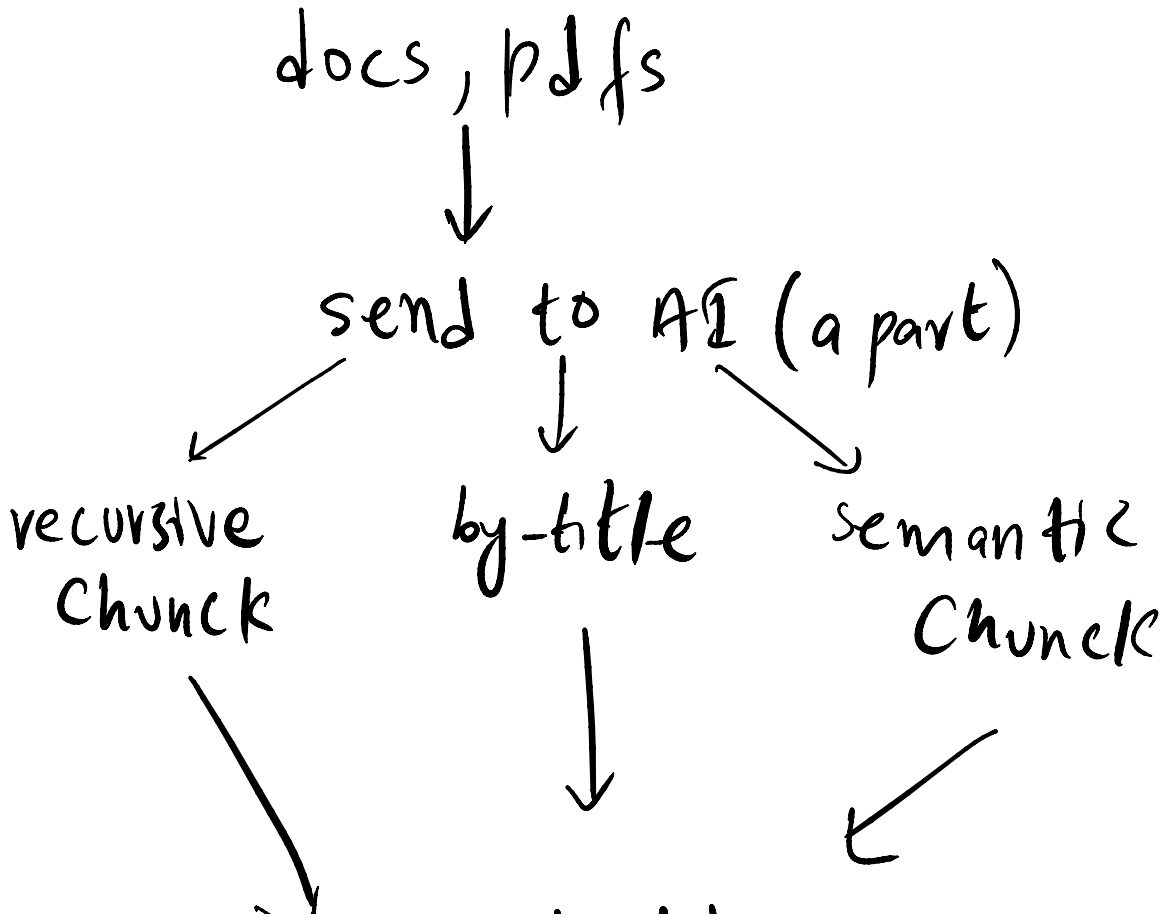
{ submission: 1
grade : ''
remarks : ''
}

2) AI RAG



student
courses
RAG Pipe
output

RAG Pipe



docs, pdfs
send to AI (a part)
recursive Chunck
by-title
semantic Chunck

embedd

↓

store in vector db

3) AI Assistant

teacher

↓

agent

↓

result

result

agent : checks results, emails to students, ask for student Query.

⇒ This agent will have its own Db
